(3) The Commission may refuse to issue a licence where the applicant has been convicted of an offence under this Act within the twelve months immediately preceding his application and the Commission is satisfied that it would not be in the public interest to issue a licence to him.

(4) The Commission shall, before refusing to issue a licence, afford the applicant for the licence or his representative a full and ample opportunity to be heard in relation to the application.

(5) Any refusal to issue a licence shall be by order of the Commission.

NOTE: In most instances where a grain company operates two or more primary elevators at one location, the operations have been combined under a single manager. This has been aided by the trading of elevators between companies. As a result of a move towards greater economy and efficiency, the 3,324 elevators individually licensed as at August 1, 1980 reflect only 2,162 operating units. The above table indicates this pattern, according to the major companies. The bracketed figures indicate the licensed separate units. It should be recognized that this statement reflects a constantly changing situation and is based upon the latest available data.

NOTA: Dans la plupart des cas, lorsqu'une compagnie de grain exploite deux silos primaires ou plus au même endroit, les exploitations ont été combinées et relèvent d'un seul directeur. L'échange de silos entre compagnies a favorisé cette politique. En vue d'accroître les avantages économiques et l'efficacité des opérations, les 3,324 silos agréés séparément au 1^{er} août 1980 représentent seulement 2,162 unités d'exploitation. Le tableau ci-dessus indique ce mode de développement pour les compagnies les plus considérables. Les chiffres entre parenthèses indiquent les unités distinctes agréées. Il faut se rappeler que c'est une situation qui évolue sans cesse et qui est fondée sur les plus récentes données disponibles.
